PSA SECH is located in the Genoa Harbour basin in the heart of the Port of Genoa. It is close to the open sea with easy and quick access to pilotage. The terminal also has excellent access to the Genoa West motorway that connects to northern Italy, France, Switzerland and Germany.

The terminal features an automatic access gate and a state-of-the-art border inspection post. In addition, the terminal is well equipped for storage of both dangerous cargo and reefer containers.

Along with PSA Genova Pra' in the port of Pra' that can handle ships of up to 24,000 TEUs, PSA SECH is the only other terminal in Genoa that can handle ships of up to 16,000 TEU. PSA SECH is an optimal base for discharging and loading operations into northern Italian logistic hubs. ■
