PSA HALIFAX

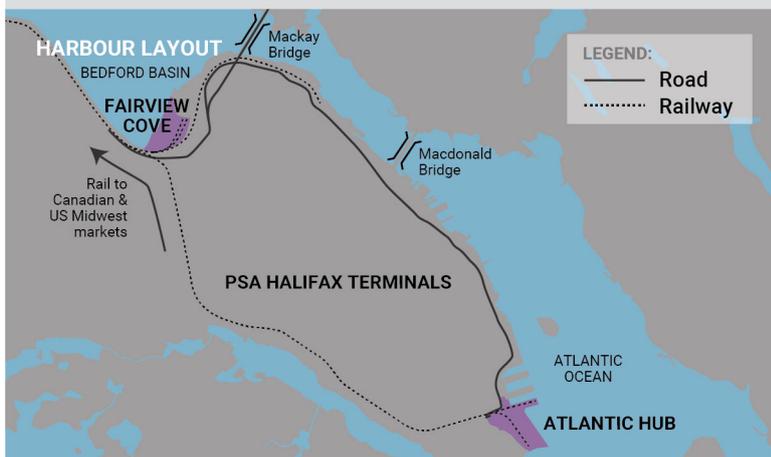

PSA Halifax Atlantic Hub and PSA Halifax Fairview Cove are PSA's two container terminals in Nova Scotia, Canada. With natural deepwater, year-round ice-free access and the capability to handle the largest vessels visiting North America's east coast, PSA Halifax offers global carriers and logistics providers reliable operations, high quality services, and global supply chain solutions.

As a global hub port, the two terminals provide value-add services as well as efficient and flexible routing options for cargo interests with end-to-end connections in Asia, Europe and the Caribbean for the major cities in eastern Canada, the U.S. Midwest and short-sea coastal destinations.

PSA Halifax Atlantic Hub terminal is located at the south end of the city. Equipped with seven super post-Panamax quay cranes, the main quay is 800 metres in length, providing two deepwater berths suited for regional and short-sea services. A Roll-on/Roll-off (Ro-Ro) ramp is also available.

PSA Halifax Fairview Cove, at the north end of the city, is a second marine terminal operated by PSA Halifax. It serves vessels of up to 9,000-TEU capacity as part of an integrated offering. The terminal spans 70 acres, featuring a 700-metre berth and over 3,000 metres of on-dock double-stack rail. Water depth at the dock is a minimum 16.8 metres along the entire length of the berth. The terminal has three super post-Panamax cranes. It also has a state-of-the-art truck marshalling yard, a Ro-Ro ramp, and like PSA Atlantic Hub, is an international Ship and Port Facility Security certified facility.

PSA Halifax is Canada's Atlantic hub and the partner of choice for superior logistical support. ■
