SP-PSA International Port (SP-PSA) is well positioned to serve the fast growing bulk traffic of Vietnam, and to become a hub for Indochina.

Strategically located along the Cai Mep-Thi Vai river, SP-PSA is well equipped to handle large vessels at its deep water berths. SP-PSA is poised for growth with the development of extensive road and inland waterway networks linking it to Ho Chi Minh City and the rest of the burgeoning South Vietnam industrial hinterland.

The terminal became operational in May 2009. ■

Facilities	
Berths	2
Quay length (m)	600
Area (ha)	27
Max depth at Chart Datum (m)	14.5
Quay cranes	4
Designed capacity (Million Tons)	6
